

I am a Financial Planner with 27four Wealth a Financial Planning practice based in Durban. I requested Peter Jones assistance as I was at a point where I wanted to take my business to the next level. Peter has a wealth of business experience and I felt he was the right fit to assist me on my journey.

Peter helped me understand the bigger, more strategic picture of my business and assisted to help me develop a plan to enable me to achieve my goals.

His particular strength is his ability to constantly reinforce and challenge one to stay focused on achieving goals. As a business owner it is important that you have a supportive 'sounding board' to help one identify and solve problems. Peter helped me think 'out of the box' and identify solutions to the challenges I faced.

Regular meetings were held and progress documented to help me understand my journey. He certainly has helped me on my path to success!

I would recommend Peter to any business owner established or new, to establish a blueprint for success.

Kind Regards

MICHAEL COLLOCOTT
